<h2 style="text-align: center;">Children's work is their play!</h2>		
<p>Play power, there is a lot of learning going on your child's play! Putting two blocks together to make a highway? That's addition. Cutting fringe from paper? That's developing fine muscle skills used later in writing. Putting pieces of puzzle together? That's using thinking skills and visual preparation.</p> <p>It sounds so simple, yet the skills children accumulate through play serve them throughout their growing up years. As concrete learners, children need the opportunity to participate in many kinds of hands-on experiences in order to understand abstract concepts.</p> <p>And what about sharing with others, making new friends and taking turns?! Stretching the imagination, encouraging thinking skills, and becoming confident, caring for friends is what BeiBei Amigos Preschool does by providing a environment of choices, through various learning centers, that stimulate play.</p>
